## **THE EYE BANK FOR RESTORING SIGHT, INC., OF NORTH CAROLINA**

The Eye Bank for Restoring Sight, Inc., is a state-wide organization for obtaining, preserving and transporting eyes and making them available to any eye-surgeon to perform the corneal graft or transplant operation for the restoration or improvement of sight in certain cases of patients suffering from a particular type of blindness or impaired vision.

The Eye Bank for Restoring Sight, Inc., incorporated in 1951 under the laws of the State of North Carolina, co-operates with the pioneer and original organization, The Eye Bank for Sight Restoration, Inc., of New York, and its affiliate Eye Banks in Boston and Chicago, with eye specialists, hospitals, Lions Clubs, Junior Chambers of Commerce, American Legion, Grange, women's organizations, the North Carolina State Commission For The Blind, and all who aid in preventing blindness and restoring sight. The South Carolina Eye Bank, Inc., is affiliated with the North Carolina Eye Bank.

### **THEY ARE BLIND BUT WE CAN GIVE THEM SIGHT\***

Through our great good fortune, modern surgical science now empowers the least of us to leave to our fellowmen when we die a gift like the gifts of God. Together, we can leave sight to thousands of blind Americans.

By one generous act, costing us nothing and involving no sacrifice, you or I can let in the light to a child now locked in the dark for life—to a soldier blind because he fought for us where steel was flying.

This power we have to hand on sight to certain of the blind is new in history. No other generation has held so precious and profound a legacy in its keeping—one that cannot be made by human hands or bought or sold in any human currency—only given freely by a man at death as God gave it to him at birth.

## A MIRACLE OF SCIENCE

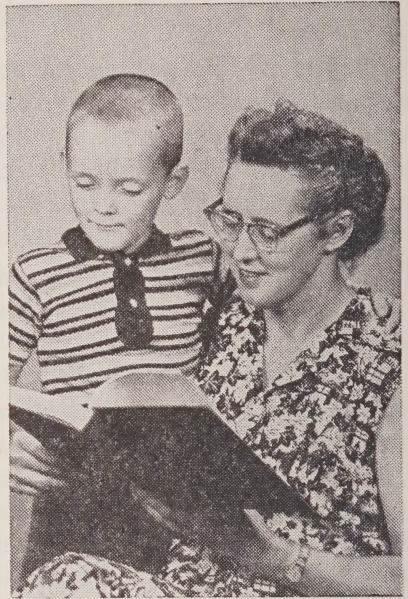

The operation for replacing a clouded cornea, a triumph of surgery, gives us this power and privilege. It culminates a century and a half of experiment and research by many scientists in many nations and translates into reality a dream as old as man. Its results read like a catalogue of miracles.

The principle of the corneal graft operation is simple — the replacement of a clouded cornea by a clear one.

Our corneas are tiny pieces of tissue, no bigger or thicker than dimes, which curve in front of the irises and pupils of our eyes. Nothing else under the sun possesses their characteristics or can fulfill their function. Normally, they are completely transparent.

Sometimes injury or disease clouds both corneas of a person's eyes, making them opaque to light. When that happens, even though the rest of the eyes and the optic nerve remain healthy, the person becomes blind. Vision is stopped at its source. But not necessarily stopped forever! Vision can now usually be restored by cutting away the clouded cornea and replacing it with a piece of clear, healthy cornea taken from the eye of a generous and thoughtful person who has specifically asked to make this priceless gift. A good cornea is defined as a healthy, transparent one from a person known to have been free from infectious diseases; the age, sex, race, and blood type of the donor make no difference, nor does any defect in vision not affecting the cornea.

*There are no eyes bought, and there are no eyes sold.*

*"Prior to two corneal transplants," Miss Tressa Tutterrow, Union Grove, N. C., says, "I could barely tell light and anything I had to do was 'guess work'... Being able to read means most to me since I get more pleasure from reading than anything else."*

## A MIRACLE GOING TO WASTE

Eye-surgeons say that thousands of Americans could probably be made to see again through the corneal graft operation.

Until 1945, however, there was very little hope that most of these blind people would ever escape their prison of darkness and dependence, even though science held the magic key that could release them.

There were two reasons for this shameful situation—"shameful" because it is unendurable among civilized people that suffering should go on when the means of relieving it exists.

The major reason was a shortage of corneal tissue—a shortage so acute that even the first person on a surgeon's waiting list had to wait for months for a cornea to become available, while a blind farm boy, hundreds of miles from an eye-specialist, and on nobody's waiting list, stood no chance at all.

The second reason was a combination of problems in time, space, and transportation. There are a number of eye surgeons in North Carolina performing the corneal transplant operation. Their potential patients are, of course, scattered throughout North Carolina as are the potential donors of eyes. And corneal tissue can be preserved for grafting only *forty-eight* hours. When a cornea does turn up, it is a race to get it, the surgeon, and the patient together in time.

In order to overcome this handicap in North Carolina, regional directors have been established and if consulted promptly, will assist in the proper and speedy handling of donated eyes.

### A MIRACLE OF GENEROSITY

The success of the Eye Bank must depend upon the generosity of the public—upon you and me individually, and upon all of us together. We can help in two ways. The first is by donating our eyes. The surgeons can do little and the organization of resources can do little unless we make it an American habit to arrange for the gift of our eyes after death as naturally as we now arrange for the gift of lesser treasures, like property.

Though we do nothing else with our lives that is memorable, this will be memorable: that, having light to give or to waste, we gave it. Nothing compels us but mercy. No one forces us but a little girl stumbling in the dark, lifting her face to catch the heat of a sun she will never see without our help. No law constrains us but the one that is written: "Inasmuch as ye have done it unto the least of these, ye have done it unto Me."

Surely these forces and this Law will be enough, and we shall be honored among the generations for making to our fellow men the gift like the gifts of God.

The cases have to be carefully selected, as corneal grafting can restore sight in only one type of impaired vision—that caused by opacity of the cornea when the rest of the eye and the optic nerve are healthy.

Not everyone suffering from opacity of the cornea can have sight restored, or be helped to better vision, by the corneal transplant operation. In proper cases, however, persons

who suffered scarring of the cornea or who developed corneal opacity after the eye had attained its full growth and usefulness may be helped, even after years, by the grafting operation.

By "proper cases" is meant, generally, cases in which the scarring is confined to the pupil area; in which the rest of the cornea is clear and healthy; and where there is no disease of the optic nerve or other parts of the eye. Success-

*FAR-SIGHTED MAYOR looks to someone else's bright future. Mayor James S. Smith of Charlotte, N. C., wills eyes to Eye Bank.*

ful results may be expected in 90 per cent of operations performed on such cases.

By "successful" is meant that vision is restored or improved, and that the graft remains clear indefinitely. Because it is only in recent years that the technique of the corneal graft operation has been perfected, most records on such cases date back only about twenty years. Operations performed twenty years ago on patients whose cornea still remains clear are considered successful.

Visually handicapped people who suffer from corneal opacity are urged, when possible, to consult a reputable local eye specialist before jumping to the conclusion that their sight can be restored through the corneal graft, or going to some center where such operations are performed.

### **WHO CAN DONATE EYES**

The question of age has no bearing on donating one's eyes; if the tissue is healthy, the eyes of a child or of an old person can be used. Please use the enclosed form for donating eyes, carefully reading and observing the instructions. Or write to the Eye Bank for Restoring Sight, Inc., 1907 Everett Street, Winston-Salem, N. C.

### **PROCEDURE FOR GIVING MONEY**

The Eye Bank, a non-profit organization, makes no charge for any of its services or for eyes furnished. It has many volunteer workers but only one paid employee. The Regional Medical Directors and other eye specialists in North Carolina remove eyes free of charge and insert the free artificial eyes that have been donated. Many other persons and organizations render free, voluntary services to the Eye Bank. Among them are airlines and other transportation agencies, and mercantile establishments who contribute valuable material and equipment. However, the Eye Bank does have expenses—for eye containers, eye donation blanks, Eye Bank booklets, stationery, postage, telephone service, films, posters, post-graduate lecturers, research, secretarial expenses, etc. It is financed solely by voluntary contributions from persons interested in the work. As it is a charitable non-profit organization, all contributions are deductible for State and Federal income tax purposes; and it is duly approved and licensed to solicit donations by action of the North Carolina Department of Public Welfare and the State Blind Commission.

The Eye Bank welcomes contributions of all sizes. If you wish to contribute, kindly mail your contribution to The Eye Bank for Restoring Sight, Inc., 1907 Everett St., or c/o N. C. Baptist Hospital, Winston-Salem, N. C.

## SUMMARY OF WHAT YOUR GIFTS WILL ACCOMPLISH

Through the Eye Bank for Restoring Sight, Inc., your gifts of eyes and money will help:

1. Make available to hospitals and surgeons a supply of fresh or preserved corneal tissue wherever and whenever needed.
2. Encourage and extend the knowledge and skill required to perform the corneal graft operation.
3. Provide eye donation blanks, their distribution, and filing of executed blanks at N. C. Eye Bank.
4. Telephone service.
5. Eye Bank exhibit at N. C. Medical Society and other conventions.
6. Secretarial services and traveling expenses.
7. Provide eye containers, and facilities for storage of eyes.
8. Provide for transportation of eyes.
9. Provide for post-graduate lecturers.
10. Provide for research in sight restoration so that more of those now blind may have the miracle of restored sight. A substantial amount is needed annually for research.

## **PROCEDURE FOR DONATING YOUR EYES**

Sign the accompanying eye donation form in ink; have your signature witnessed by two disinterested witnesses (NOT MEMBERS OF YOUR FAMILY), and send original only to The Eye Bank for Restoring Sight, Inc., 1907 Everett St., Winston-Salem, N. C. Give the duplicate to your next of kin. The Eye Bank will send you a pocket card to carry as a reminder to your next of kin or whoever will have charge of your burial arrangements. He should notify your doctor or the hospital authorities, as eyes must be removed as soon as possible after death—preferably within one hour. These authorities will have information of the eye donation on file from the Eye Bank and they will proceed to insure the carrying out of your wish.

## **QUESTIONS AND ANSWERS**

### **HOW ARE EYES OBTAINED?**

Eyes are removed after death from persons who have generously pledged their eyes for this purpose while living.

### **HOW SOON MUST EYES BE REMOVED AFTER DEATH?**

Within 1 to 4 hours and used within 24 to 48 hours.

### **DOES AGE MAKE A DIFFERENCE IN DONATING ONE'S EYES?**

If the tissue is clear, the eyes of a young or old person can be used.

### **DOES THE REMOVAL OF THE EYES CAUSE DISFIGUREMENT?**

None at all.

### **CAN MINORS SIGN FORMS—CAN PARENTS SIGN FORMS FOR THEIR MINOR CHILDREN?**

No. To sign a N. C. eye donation form, one must have reached his 21st birthday. In the case of the death of a minor, permission for the use of the eyes must be obtained from the next of kin at the time of death.

### **DOES THE FACT THAT ONE WEARS GLASSES MAKE A DIFFERENCE?**

Whether or not you wear glasses has no bearing on the usefulness of corneal tissue.

### **CAN EYES BE BOUGHT OR SOLD?**

No. Eyes are NEVER BOUGHT or SOLD by the Eye Bank.

### **IS THERE ANY CHARGE FOR THE EYE BANK'S SERVICES?**

None.

### **HOW MANY CAN BE HELPED BY THE CORNEAL TRANSPLANT?**

It is estimated that one out of every 25 blind cases could be helped by the corneal transplant.

### **DO DONATED EYES SERVE OTHER PURPOSES, TOO?**

Yes, they do. We can use all the eyes we can get. Where donated eyes are diseased and cannot be used for grafting they are carefully studied in research to help find causes and cures for blindness.

## WHY I GAVE MY EYES TO THE EYE BANK

*I love to wake to the songs of birds in the early morn—  
But better still, I love to watch a beautiful rosy dawn.  
I love to feel the sun as it warms me with its rays,  
But better still—to see—to know the nights from the days.  
To smell the fragrance of the flowers is a nice sensation,  
But better still—to gaze upon the beauty of God's creation.*

*I like to stand on a sandy beach, and feel the wind in my hair,  
But better still—to look and see God's handiwork pictured there.  
To see the flowing sunset when the sky puts on her show—  
There are those whose eyes have never beheld its wondrous glow.*

*I love to sit in church surrounded by the beauty there—  
But I remember those who this pleasure cannot share.  
To watch the flash of lightning like fingers in the sky—  
Knowing others only hear the thunder rumbling by.  
To feel the rain, and afterwards, behold a rainbow high—  
Someone will see them, through my eyes—when I die.*

*I love to look into the faces of my girl and boy,  
To record their images on my heart—ah, 'tis such a joy.  
I love to see all the wonderful things that God has given me—  
I gave my eyes to the Eye Bank so that maybe a child can see.*

---

NOTE: This poem was written by a Shelby mother who had pledged her eyes, at death, to the N. C. Eye Bank and had difficulty in explaining her action to her teenage children. She thought it over, and this beautiful expression of what her vision means to her and why she wants to pass it on to someone else is the result.

*DISCUSS EYE BANK—Two people who have had their sight restored through transplanting of corneas, (left to right) Leo Lawrence and Mrs. Margaret Harrington, discuss the forms used by persons wishing to bequeath their eyes to the eye-bank with Mrs. H. R. Borthwick, (right) Chairman of the Board of Directors of the Eye-Bank For Restoring Sight, Inc., of North Carolina.*

## WHAT THE NORTH CAROLINA EYE BANK MEANS TO ME

The North Carolina Eye Bank has meant so much to me. It has given me a great future to look forward to. When I think of the future that was facing me words seem inadequate to express my feeling of thankfulness and gratitude. Without it, my life would soon have been at a standstill. It has given me new life; one filled with much happiness because I can now carry on my work of nursing the sick. I can also enjoy movies, TV, and read the finest print with ease. My prayers go out for the Eye Bank and all those who had a part in my successful operation.

MRS. MARGARET HARRINGTON

The operations for Corneal Transplants have given me the best vision I have ever had. Also, it has meant that I can continue working, as I would have had to discontinue the work I was doing, thereby losing my position, as my sight was failing. The operations have also enabled me to get more color and beauty out of life than I had ever known, because prior to the operations everything appeared drab and lifeless looking.

To the Citizens of Lee County and Surrounding Areas:

On behalf of the Sanford Lions Club and myself, it is with great pleasure that we extend to you a most cordial welcome to the 1960 Lee County Agricultural Fair.

The success of this Fair will depend largely on the interest of you fine people and it can be expressed by furnishing us with all the exhibits you can conveniently spare. The purpose of the Fair is to demonstrate the workmanship skills and products of the citizens and to furnish them an outlet for their sales. The accomplishment of this purpose can only be made through the fine cooperation you have given us in the past and will give us this year.

We have spared no expense in making available a nice Exhibit Hall and Livestock Building for your products and the Farm Leaders, County Agent, Home Demonstration Agent, and the County Agricultural Teachers all stand ready to assist you in preparing and arranging your exhibits and livestock for competitive prizes.

Refer to the premium list and begin today preparing your exhibits for the finest and best Agricultural Fair the county has ever known, and REMEMBER! you are the folks that can make it the best.

The main project of all Lions Clubs is work with the blind and visually handicapped. All profits realized from the Lee County Fair go to this most worthy cause. This year we have inserted in this catalog a small booklet on "The Eye Bank for Restoring Sight, Inc., of North Carolina." Let me urge each of you to read this booklet and then tell your friends about it.

Sincerely,

P. K. BUCHANAN

President of Sanford Lions Club.

The main project of all Lions Clubs is work with the blind and visually handicapped. All profits realized from the Lee County Fair go to this most worthy cause. This year we have inserted in this catalog a small booklet on "The Eye Bank for Restoring Sight, Inc., of North Carolina." Let me urge each of you to read this booklet and then tell your friends about it.

We Sincerely Hope You Come and Enjoy the
